

# NEED4B PACKAGE

The findings and solutions of NEED4B project have been published in several reports and documents, which are gathered in this "NEED4B Package". This package will help you to discover in an easy way the main outcomes of NEED4B.

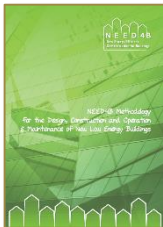

## NEED4B Technical Catalogue

A catalogue that includes a general overview of the project, as well as a technical description of the pilots built by NEED4B, showing the main technologies and solutions applied.

## NEED4B Methodology

Extense Report that presents in detail the methodology developed by NEED4B on how to design, construct and operate very low energy new buildings

## NEED4B Guidelines

Set of guidelines as a support to the implementation of the NEED4B methodology addressed to all types of stakeholders in the building sector.

## NEED4B Handbook

NEED4B Best Practice Handbook is the result of the application of the NEED4B methodology at the different demo sites. It provides a set of recommendations for each phase of the building based on the lessons learnt in the project.

AVAILABLE  
SOON
